All the supplies you need...

Staying consistent with Fairfield Orthodontic's principal of offering a wide range of products, we currently offer over 20 different styles of protective eyewear. We also offer a variety of disinfectant and sterilization products, as well as many disposable products. Fairfield wants to be your one-stop-shop to purchase all of your supplies.

Our very popular Vanquish eyewear line is available with bonding lenses, clear lenses, and gray lenses. Our newest line- Techno offers the sleek styling of Vanquish with added rubberized nose and ear pieces- Like Vanquish, it's likely to become a classic favorite. We are excited about our new Eclipse disposable eyewear, which is a simple and cost effective solution for keeping your patients protected.

Our wide range of disinfection, sterilization, and disposable products are offered so you can purchase the products you need from a single company. Try our X-Ray film, made by Agfa.

Fairfield Orthodontics also wants to make the ordering process as simple as possible. Therefore we developed the ez fax ordering system. On the back of this page is a fax order form which can be copied and used for placing orders. You will find a similar order form at the beginning of each section throughout the catalog- each specifically designed for ordering the products in that section.

COECIDE XL / COECIDE XL Plus Sterilizing & Disinfectant Solution

Coecide XL and Coecide XL Plus are sterilizing and disinfecting solutions consisting of 2.5% glutaraldehyde and 3.4% glutaraldehyde, respectively. The solutions have a broad spectrum sporicidal, tuberculocidal, virucidal, bactericidal, pseudomonacidal and fungicidal activity. They also contain corrosion inhibitors which protect instruments.

Shipped in unactivated gallons. Included buffer solution can activate one quart at a time for economy.

Medica 28 Plus Sterilizing & Disinfectant Solution

- Mild pleasant fragrance
- Non-Staining
- 25 min kill time
- 3% glutaraldehyde
- Tuberculocidal
- EPA registered

Medica 28 Plus 3.0% Glutaraldehyde is a new higher strength formulation with accelerated kill times for faster high level disinfection of instruments. Medica 28 Plus uses a lower glutaraldehyde level than other extra strength products to reduce odor and vapor level in the operatory. Medica 28 Plus has a minimal surfactant level to protect lensed instruments and a new solid activator to assure a mild pleasant smell at the higher glutaraldehyde concentration and to maintain a consistent efficacy level through 28 days of continuous use.
